ID Grand Rounds

Andrew Karaba, M.D., Ph.D.

“Inflammasome Activation in Viral Infections: Friend or Foe?”

Tuesday, February 22, 2022
8:00 – 9:00 a.m.
Zoom

Dr. Andrew Karaba is an assistant professor of medicine in the division of infectious diseases at Johns Hopkins University in Baltimore, MD. He received his M.D. and Ph.D. from Northwestern University where he graduated summa cum laude. His Ph.D. research focused on how herpes simplex virus entry receptors contribute to pathogenesis. He completed internal medicine residency and infectious diseases fellowship at Johns Hopkins and joined the faculty in 2021. His current research interests include mechanisms of innate immune activation in response to viral infections and innate and adaptive immune responses to viruses in solid organ transplant recipients. He is a member of the Johns Hopkins COVID-19 therapeutics guidance committee and sees patients as part of the transplant and oncology infectious diseases consultation service.
