“Highlights of Clinical Thyroidology 2020”

Angela Leung, MD
Endocrinologist
Endocrinology – Diabetes and
Metabolism Internal Medicine
Ronald Reagan UCLA Medical Center
Associate Professor of Medicine
UCLA David Geffen School of Medicine

Objectives:
1. Interpret findings from recent literature regarding the risks vs. benefits of anti-thyroid drug therapy in hyperthyroidism
2. Describe the biochemical patterns observed in patients with COVID-19 related thyroiditis
3. Describe the key management points for patients with thyroid disease during pregnancy

Please use the below QR code to complete the Grand Rounds evaluation:

Accreditation Statement:
This session will be open to clinicians, residents, students and all others.
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The University of Arizona College of Medicine - Tucson and The University of Arizona College of Medicine – Phoenix. The University of Arizona College of Medicine - Tucson is accredited by the ACCME to provide continuing medical education for physicians.
The University of Arizona College of Medicine - Tucson designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Statement(s):
Dr. Leung has disclosed that she is a consultant for Vertice Pharma. Her presentation was reviewed, and the content found to be evidence-based, balanced, and non-promotional. All other faculty, CME Planning Committee Members, and the CME Office Reviewers have disclosed that they have no relevant financial relationships with commercial interests that would constitute a conflict of interest concerning this CME activity.
