

COLLEGE OF MEDICINE TUCSON

# Genetic Counseling Graduate Program

PRESENTS

## Genetics and Genomics Grand Rounds

April 17<sup>th</sup> | 4 – 5:00 pm | HSIB 880/Zoom

<https://arizona.zoom.us/j/83648686758>

Telephone: 602-753-0140 | Meeting ID: 836 4868 6758

**Speaker Host:** Jason Karnes, PhD | [karnes@pharmacy.arizona.edu](mailto:karnes@pharmacy.arizona.edu)

**Contact:** Kathy Ben | [kben@arizona.edu](mailto:kben@arizona.edu)

## Advancing statin precision medicine: bridging gaps for understudied groups

**Akinyemi Oni-Orisan, PharmD, PhD**, is an Associate Professor at the University of California, San Francisco, Department of Clinical Pharmacy, and the Associate Director for the UCSF Clinical Pharmacology and Therapeutics Postdoctoral Training Program. The long-term research goal of Dr. Oni-Orisan's lab is to improve pharmacological regimens for the prevention and treatment of cardiovascular disease in ancestrally diverse populations through precision medicine. To accomplish this objective, his group combines computational approaches in pharmacogenomics and pharmacoepidemiology using electronic health record-linked biorepositories. His lab is currently funded by the National Institutes of Health (NIH) to investigate genetic and social determinants of pharmacological health outcomes in diverse populations.
