

SPECIAL GUEST SEMINAR

William Zeiger, MD, PhD

Assistant Professor-in-Residence, Department of Neurology, University of California – Los Angeles

Tuesday, November 4, 2025 11:00 am to 12:00 pm

> HSEB - Room B402 435 N 5th St., 4th Floor and Zoom:

https://arizona.zoom.us/j/82366103573

<u>Topic</u>: Mechanisms of somatosensory cortical map plasticity in the healthy and stroke injured brain

Biosketch: William Zeiger, PhD, is an Assistant Professor-in-Residence at the University of California – Los Angeles (UCLA). As a faculty member since 2020, he has spent 15 to 20 percent of his time performing clinical care, with a focus on the diagnosis and treatment of Parkinson's Disease (PD) and atypical parkinsonian disorders. He dedicates the remainder of his time to translational neuroscience research, specifically investigating how changes in neural circuits drive symptoms of neurological disease and how neural circuits can be modulated to treat symptoms and disease progression.
