# WORKS IN PROGRESS & PIZZA Seminars

## (WIPPS)

For Neuroscience  
(and other) undergrads,  
grad students, postdocs &  
lab staff. Share your  
research, eat a little PIZZA!

## Friday, December 5, 2025

## 12:00 PM – 1:00 PM

## HSEB B-302

Presenting:

**Gokul Krishna, PhD, Research Scientist III**

*From the Lab of Dr. Melissa Warden, Assoc. Professor, Translational Neurosciences*

Seminar Title: *Regulation of midbrain dopamine neuron  
ramping activity*

Dr. James Bibb, Chair, Translational Neurosciences, invites you to attend and participate in this trainee seminar series, held on multiple Fridays at 12:00 Noon. Participate as a presenter or become a mentor to assist in evaluation and feedback after the seminar. Next Date: 12/19. Join us next year as this seminar series also becomes a CTS Course (CTS 696N). Starts Jan 16, 2026. Contact [dbenoit@arizona.edu](mailto:dbenoit@arizona.edu) for more information.
