DEPARTMENT OF SURGERY WELCOMES NEW CLINICAL ASSISTANT PROFESSOR, DR. KHUBAIB MAPARA

Khubaib Mapara, MD, joins the Department of Surgery as Clinical Assistant Professor in the Division of Vascular and Endovascular Surgery.

The University of Arizona College of Medicine – Tucson Department of Surgery is pleased to welcome Khubaib Mapara, MD, as a clinical associate professor in the Department of Surgery’s Division of Vascular and Endovascular Surgery.

Prior to joining the University of Arizona, Dr. Mapara was a Staff Vascular Surgeon at Cleveland Clinic Abu Dhabi, part of Cleveland Clinic Foundation, USA. At Cleveland Clinic Abu Dhabi he was instrumental in development of multi-disciplinary limb salvage program and in management of complex aortic pathologies. He was also actively involved in optimizing noninvasive vascular lab protocols for assessment of wound healing potential.

Dr. Mapara was born in Karachi, Pakistan and completed his medical education from Aga Khan University, Pakistan. He moved to the United States after medical school and completed General Surgery Residency and Research Fellowship from Vanderbilt University Medical Center, Nashville. He then completed Vascular and Endovascular Surgery Fellowship from University of Pittsburgh Medical Center. He is Board Certified in Vascular Surgery and is an active member of the Society for Vascular Surgery.

Dr. Mapara takes care of broad spectrum of arterial and venous pathologies and dialysis access. He can treat patients medically and surgically, both in a traditional open manner and minimally invasive endovascular fashion. His clinical interests include Extra-cranial carotid disease, aortic dissections, complex aortic pathologies, and challenging limb salvage in patients with Chronic limb threatening ischemia.

Dr. Mapara has a keen interest in clinical outcomes research. This includes evaluation of outcomes in endovascular and open reconstructions in patients with chronic limb threatening ischemia and type b aortic dissections. He has co-authored several peer reviewed articles.

Dr. Mapara lives in Tucson with his wife and three boys. Outside of medicine, he enjoys open water swimming, hiking, cooking, travelling, and spending time with his family.
