

Telemedicine Training

TRACK 1: Developing a Telemedicine Program
August 15, 2022 from 9:00 AM - 2:00 PM AZ time

To Register: www.telemedicine.arizona.edu

Course Content:

This conference gives a broad overview of a variety of telemedicine topics, including:

- Clinical services
- Telecommunications and infrastructure development/operations
- Distance education
- Evaluation
- Business aspects
- Equipment demonstration virtual tour

Who should attend?

This course is excellent for individuals or groups who have some telehealth experience and are interested in expanding their services. It is also a great course for those new to telehealth who are interested in gaining a deeper understanding of this growing industry.

Course Goals:

- To provide ongoing training for health care professionals involved or interested in clinical telemedicine and telehealth services.
- To promote improved public health in rural and urban communities by providing current telemedicine and telehealth information and training.
- To provide health care systems throughout Arizona and nationally with information, training, and expertise in telemedicine and telehealth application.

Outcome Objectives

- 1.) Apply telehealth best practices in the clinical integration of telehealth services as applicable.
- 2.) Incorporate basic financial principles and latest billing policy updates for telehealth business planning.
- 3.) Incorporate evaluation and assessment metrics for telehealth services.
- 4.) Apply network and patient data security technologies for telehealth services.
- 5.) Incorporate virtual etiquette and best practices to effectively communicate using telehealth technology, including cameras, software, and peripheral devices.
- 6.) Recognize telehealth deliveries and resources that promote equitable access to care.

Accreditation / Credit Designation Statement
